Checkmate

Intro - Sample

manhwa.grumpyland.com

Hello everybody,
This is a portion of chapter 1 of manhwa, Checkmate (Random trivia: Did you know there are 3 manhwas named Checkmate? They really should try different names). This is by Kim SangYeop (1983), a brand new author!

This isn't a beginning of me scanlating this series, but an awareness scanlation. Because so many manhwa out there are never known by international community, I'm just adding 1 more manhwa into the list of knowns. This manhwa was not even listed in baka-updates till I added this a day prior to releasing. And there's just SOOOO many more out there that I can't possibly do it all myself.

I hope people find this sample interesting.

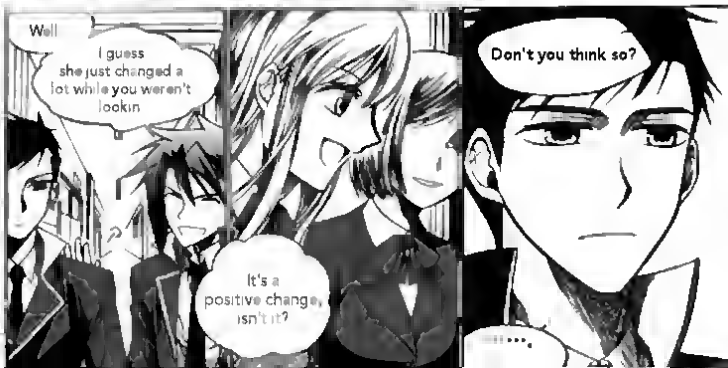
You mean SeoYeon?
How so?
I was friends with her since kindergarten
And in the past few days she changed so much
She was never the type to be so out-going
She was so shy that she would hardly even converse with close friends
But these days, she's suddenly--
It's like she's a completely different person
Hmm



Well
I guess she just changed a lot while you weren't lookin
It's a positive change, isn't it?
Don't you think so?

I'll definitely find her!
Do you

'Dione Graf'... Alias, Dion
He's the princess' head secretary and an owner of Lote's best processing unit
Compared to an ordinary search squad, he has a much better chance to find her
If he finds the princess and begins to move,
All we have to do is follow him and eliminate both of them
